Access to Justice	01-A J-14-NL	Preventing Discrimination by strategic litigation - BH Anti-discrimination team	Vaša prava, Sarajevo	This project is a continuation of activities launched earlier – prevention of discrimination in BiH through strategic legislation, aimed at securing continuity in implementing this component of the AD program i.e. the part related to strategic legislation. The "Vaša prava BiH" Association and the AD legal team, established previously in the Association, will continue with its activities focused on strategic legislation. In particular, the team will: receive and process information/cases they collect themselves or receive from legal clinics or the Monitoring Sub-team; provide free legal advice in such cases and initiate judicial and other proceedings in selected cases; provide free representation to clients or engage counsel; provide monitoring of initiated judicial cases and report on them, including cooperation with other organizations, exchange information and provide support to other AD Sub-teams.	5N	01-Jan-14	01-Sep-14	8 months	Closed	84.000,00	84.000,00
Access to Justice	02-A J-14-NL	Antidiscrimination edu-info program in BH 2014	Foundation Media Center, Sarajevo	Educational and informative program on discrimination in B&H is a part of OSF's broader AD program whose aim is to raise public awareness of discrimination issues in B&H and to provide communications support to all the activities of the AD program. This initiative is based on the assumption that B&H public is not acquainted with the problems of discrimination, its forms and shapes or with the available mechanisms for the protection against discrimination. Based on the results of previous years, 4th year of EIP will continue to: initiate public debates over various aspects of discrimination; inform BH citizens on protection mechanisms and discrimination in general; produce informative and educational resources on discrimination; strengthen cooperation between various stakeholders active in anti-discrimination field; support other components of AD program in BH.	5N	01-Feb-14	30-Jun-14	5 months	Closed	27.000,00	27.000,00

Budget Transparency	04-BT-14-NL	Floods in BiH : The role of the state in the system of civil protection	Center for Investigative Journalism	Recent floods in Bosnia and Herzegovina actualized the problem of inadequate and unadjusted system of protection in emergency situations. System of protection and embankments along the major rivers in BiH, missing during floods in 2010, is still in planning. What we have in place as embankments was built as recent as Austro-Hungarian Empire and period of Socialist Yugoslavia. Democratic government of BiH failed to produce a comprehensive emergency plan even 20 years since war ended. At the same time, people living in proximity of major rivers in BiH are still uncertain of their safety in periods of snow melting or rainy periods. State administration is silent, while money is being spent elsewhere... Through this investigation, CIN reporters will look for issues that BiH faced in recent floods, trying to establish why money dedicated to emergency situation was not used properly and weather consequences could have been lesser if the system was functioning properly. They will write a series of 5 in- depth stories, hoping to raise attention to problems that should be dealt with.	5N	15-Jun-14	15-Sep-14	3 months	Closed	14.308,00	14.308,00

PH - Public Health	01-PH-14-NL		CIN, Sarajevo	Around 2 billion KM are allocated from the budget for primary health care protection in BiH, according to the records available in the published reports. The bulk of this money, over 90 percent, comes from citizens' monthly health care contributions. Health care insurance, as a part of welfare insurance makes up a single system within which citizens ensure their rights to health protection and other forms of insurance. This is done through contributions on the basis of solidarity within the cantons. According to the World Bank report, only about 60% of citizens of BiH have health insurance. In this context, amount of money that is being allocated from the budget is even more significant, considering the fact that the rest of 40 % of citizens are covering their health expenses on their own.	5N	01-Jan-14	31-Dec-14	12 months	Closed	110.042,00	110.042,00

They are not well informed/ educated and, thus, regularly abused. The main objective is to contribute to the creation of "active consumers" who will know their rights, but also the ways they can exercise them. We plan to realize our set goals via the production of BarCode-TV series for Consumer Protection (40 shows per 25 min.). Educating and informing the consumers is not doable without the help of media and we believe that this series will be of invaluable benefit to all citizens. Expected Results · Informing and educating citizens regarding consumer issues · Providing distribution of TV series (electronic/ print/ social networks) · Providing free legal assistance to consumers · Participation of consumers in the realization · Communication with institutions, business entities, academic institutions.	5N	01-Dec-14	01-Jul-15	6 months	Active	49.958,00	16.652,00
